Meticulous Full-Stack Developer bringing a solutions-driven approach to development. Has a wealth of diverse experiences with a strong background in problem-solving, multitasking, time management, and data entry. Exceptional logical abilities propel my programming skills.

## Technical Skills

**Languages:** Node.js, JavaScript, jQuery, AJAX, SQL, HTML5, CSS3, Python, C#

**Frameworks:** React.js, Bootstrap

**Applications:** GIT, GitHub, Firebase, MySQL, MongoDB, Bash

## Applications Built

**Hiker App** | [cb721.github.io/Project-Batman/](https://cb721.github.io/Project-Batman/) | [michaelpdwyer.github.io/Project-Batman/](https://michaelpdwyer.github.io/Project-Batman/)

An application for a user to locate a nearby hike based off any location they prefer. Used user address and coordinates of preferred destination to pre-populate directions.

- Back-End Developer of a group of four
- Geolocation API, Directions
- Built a back-end using Axios

**Galaxy Horizons** | [github.com/CB721/project-altavista](https://github.com/CB721/project-altavista) | [guarded-retreat-41889.herokuapp.com/](https://guarded-retreat-41889.herokuapp.com/)

An application where a user can log in and play a racing game. User cannot play the game without first creating an account.

- Game and back-end developer of a group of four
- User authentication using Passport.js
- User account information stored in SQL database
- Unity Game Engine
- Created game logic with C#

## Experience

**Full Stack Web Developer** | March 2019 - Current

Freelance (Seattle, WA)

- Designing websites using HTML5, CSS3, JavaScript and jQuery
- Building back-end for websites using Node.js, SQL and NoSQL (MongoDB and Firebase)
- Creating servers using Express.js and Passport.js
- Crafting reusable front-end code using React.js

**Workplace Assistant** | January 2019 – August 2019

Avanade (Seattle, WA)

- Successfully enforced company security procedures by adhering to set guidelines and collaborating with all departments
- Trained temporary employees
- Vital in preparing rooms for meetings and events

**Inventory Manager & Office Assistant**

T&M Enterprises (Tukwila, WA) | September 2017 - October 2018

Pacific Strapping & Herculine (Tukwila, WA) | November 2018 - December 2018

- Successfully implemented a complete strategic warehouse redesign by identifying needs and collaborating with vendors to schedule delivery of materials and labor to see the project through to completion. Doubled available space for inventory, which reduced cost and boosted sales
- Updated database to remove repetitive items which improved inventory management process to nearly 100% accuracy
- Contracted employees for short term projects to exceed deadlines
- Processed payments and entered vendor invoices using QuickBooks

**Data Analyst** | October 2016 – September 2017

Song Technologies (Kent, WA)

- Researched and analyzed data to fulfill over 2500 orders per month
- Found and reported auto-processor errors in database using SQL queries
- Recognized by management for entering data quickly with extreme detail making it possible to accomplish company goals

**Additional Experience**

**Concierge**, Compass Group | October 2015 - October 2016

**Insurance Agent**, American Income Life | January 2015 - June 2015
