Summary

Aspires to become a back-end developer in database development. Has a wealth of diverse experiences with a strong background in problem-solving, multitasking, time management, and data entry. My experience in working with Excel opened my mind to the possibilities of data manipulation. Exceptional logical abilities propel my programming skills. Passionate about learning other languages such as Python, C++ and C#.

Technical Skills

Languages: Node.js, JavaScript, jQuery, React.js, React Native, MySQL, HTML, CSS, Bootstrap, MongoDB

Applications: GIT, Github, Firebase, the command line

Applications Built

Hiker App

- An application for a user to locate a nearby hike based off whatever location they prefer
- Back-end developer of group of four
- Geolocation API, Directions
- Built a back-end using Axios
- Used user address and coordinates of preferred destination to pre-populate directions
- <https://michaelpdwyer.github.io/Project-Batman/>
